

## Basic - quality for light use

With a Basic pallet truck you get a pallet truck, for which the price is adjusted to the quality. The Basic pallet truck is easy to pump and very easy to operate and maintain.

The Basic pallet truck is very manoeuvrable and can contribute to a better utilisation of space in storage and production areas.

The Basic pallet truck is strong and very durable.

# BASIC BF

## Technical Specifications

The Basic pallet truck is a strong pallet truck, for which the price is adjusted to the quality.

Safety for the user

- special lowering valve to control the lowering function
- high-pressure relief valve to prevent overload

Good manoeuvrability/utilisation of space

- short length behind forks
- tight turning angle

Long running time and low maintenance costs

- grease nipples at all movable points
- reliable leak-proof hydraulic system

Rubber covered handle ensures a comfortable hold.

The Basic shown being used in the component industry moving heavy goods.

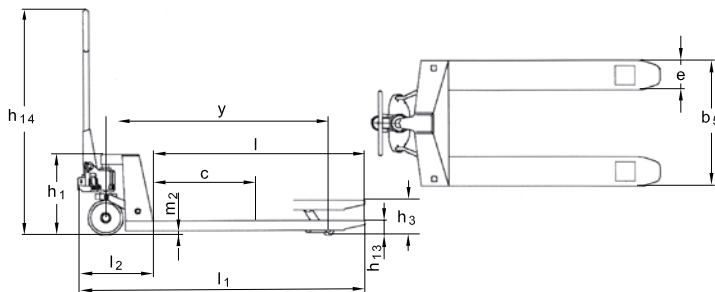

Reliable leak-proof hydraulic system.

Product (measured in mm)	BF	BF LOW
Capacity	2500 kg	2500 kg
Lifting height	200	142
Fork length	980, 1150	1150
Overall height of chassis	431	398,5
Overall width	520, 680	520
Length without forks	388	388
Overall length	l + 388	l + 388
Fork width	160	160
Wheel distance	l + 25	l + 25
Overall height	1224	1224
Lowered height	85	52
Load centre	l / 2	l / 2
Ground clearance	35	15
Turning angle of the wheels	210°	210°
Fork wheels - single	Ø80	Ø50
Fork wheels - tandem	Ø80	
Steering wheel	Ø200	Ø150
Weight	68 kg (520 x 1150)	68 kg (520 x 1150)

The Basic pallet truck is shown being used in the component industry.

The Basic shown being used in the packaging industry.

The Basic shown being used moving a pallet of beer bottles.

Available with single or tandem fork wheels.
